

Archives

ÉNONCÉ

1) Calculer les expressions :

$$A = -2 + 8$$

=

$$B = 14 - 17$$

=

$$C = -1,5 - 3$$

=

$$D = 5 - 11 + 6$$

=

$$E = (-7) \times 3$$

=

$$F = \frac{-24}{-8}$$

=

$$G = (-1,25) \times (-4)$$

=

2) Calculer les expressions en faisant apparaître les étapes du calcul :

$$H = 5 \times 11 \times (-2)$$

=

=

$$I = 20 - 2 \times 5 - 3$$

=

=

$$J = (-25) \times (-7,5) \times 2 \times (-4)$$

=

=

=

Bonus Track

Calculer:

$$K = (3 \times 10,5 - 4 \times 7) + 8 - 10 : 5 + 2 \times (-4,75)$$

=
